Assembly Drawing

A USB 3.0 (two ports): Enjoy the full power of new generation peripherals.

B Power cord extension to allow the power supply, connected through QBX 's backside, to reach the PSU (located inside the case).

C Removable right side panel to easily manage cables behind the motherboard tray.

D ODD bay cage (compatible with both slim ODD and 2.5" HDD/SSD).

E Front fan filter to prevent dust entry into the chassis.

F HDD bay cage supports two 2.5" HDD/SSD and one 3.5" HDD at the same time.

G Cage holder supports:
If the HDD bay cage **F** is not installed: An up to 240mm radiator with/or a single 120mm fan.
If the HDD bay cage **F** is installed: a 120mm fan.

H Power bracket to fix the PSU.

I Air filter for the bottom cover to prevent dust from entering the case.

J Rubber cover to prevent dust from entering the opening if a Slim ODD has not been installed.

K Left side mesh cover with ventilation exits.

L Vented slot covers for better cooling performance.

M Slot Side Cover.

N Removable top cover to easily install PSU and 2 x 120mm fans.

O 1x (pre-installed) 90mm Rear Panel Fan to rapidly exhaust the hot air from the inside and keeping the case cool.

P 2x (optional, purchased separately) 120mm bottom Cover Fans for effective graphics cards cooling.

Q 1x (optional, purchased separately) 80mm Front Panel Fan for effective cooling of HDDs and graphics cards.
